A	Bistango 1200, avenue Germain-des-Prés http://www.lebistango.com/ Echelle : 38 \$ à 52 \$ Price range: \$38 to \$52	Isabelle Scholl	i.scholl@uke.de	University Medical Center Hamburg-Eppendorf, Hamburg, Germany	health services researcher, head of research group, psychologist, psychotherapist, research interests: measurement and implementation of patient-centered care
		Glyn Elwyn	GlynElwyn@Gmail.com	The Dartmouth Institute for Health Policy and Clinical Practice, Lebanon, New Hampshire, United States	Clinician-researcher, Glyn Elwyn leads a research group that produces measures of shared decision making, investigates user-centered design of patient support tools and their integration into innovative health care delivery systems. His current focus is on Option Grid™ decision aids for clinical encounters.
B	La Bête 2875, boulevard Laurier, Delta 3, Suite 170 http://labete.ca/le-stage Echelle : 31 \$ à 50 \$ Price range: \$31 to \$50	Friedemann Geiger	f.geiger@uksh.de	University Medical Center Schleswig-Holstein, Kiel Schleswig-Holstein, Germany	psychologist; solution-focused/systemic psychotherapist; psycho-oncologist; professor for psychological diagnostics. SDM interests: implementation in entire hospitals/organizations/networks; training; measurement. Currently working on the Share to Care Project https://www.researchgate.net/project/SHARE-TO-CARE-A-scalable-international-implementation-program-to-transform-hospitals-into-full-blown-shared-decision-making-organizations
		Karina Dahl Steffensen	karina.dahl.steffensen@rsyd.dk	1: Center for Shared Decision Making - Vejle-Lillebaelt University Hospital, Denmark. 2: Dep of Oncology, Vejle-Lillebaelt University Hospital, Denmark	Medical Doctor. Oncologist. Since 2014, I have worked as director of Center for Shared Decision Making at Lillebaelt Hospital in Vejle. The Center for Shared Decision Making has launched a number of research and implementation projects within patient decision aids, PRO (Patient Reported Outcomes) and patient-clinician communication training. I am an experienced medical specialist in clinical oncology (medical and radiotherapy). I have subspecialized within gynaecological cancer and work as consultant at Department of Clinical Oncology at Vejle Hospital – part of Lillebaelt Hospital in Denmark. In 2008 I received my Ph.D. degree in biomarker research in ovarian cancer. Simultaneously, with my ongoing clinical work I continue to find both clinical trials and translational research in ovarian and endometrial cancer very interesting.
		Gary Groot	garygroot@gmail.com	Faculty of General Surgery & Community Health and Epidemiology, University of Saskatchewan, Canada	Gary is a clinical co-lead with the Ministry of Health's appropriateness program, Director of Surgical Oncology at the University of Saskatchewan, and member of the national quality committee of both the Canadian Partnership Against Cancer and the American Head and Neck Association. Gary also holds the Chair of the Equity Advisory Committee with the Canadian Partnership Against Cancer (CPAC). In these roles he bridges the evolving needs of the health care system with his research interests.
J		David Wells	dew@unb.ca		Dave has lived with type 2 diabetes since 1998. For 10 years he was a patient advocate and caregiver for his wife as she dealt with mouth and lung cancer, until she passed away in 2013. His current interests are patient engagement, patient safety, and shared decision making. He has been a professor of Geomatics Engineering since 1980; led the team that wrote the first textbook on the Global Positioning System in 1986; and organized 78 six-day courses on Multibeam Sonar over the past 25 years. He chaired the New Brunswick Surgical Care Network from 2005-2011 which designed and implemented a province-wide surgical registry reducing wait times by up to 80%. He was the patient advocate on the New Brunswick Primary Care Steering Committee which wrote the guidelines for Family Medicine New Brunswick, implemented in 2017. He is a member of Patients for Patient Safety Canada, the Maritime SPOR Support Unit, and is active in Diabetes Action Canada. He is a co-author of "Improving clinical trials through patient oriented research" (Session 6, Theme 5). He is qualified as a CPHIMS-CA.
C	L'Gros Luxe Québec (Menu végétarien disponible/ Vegeterian options available) 859, avenue Myrand (581) 981-5727 https://lgros luxe.com/ Echelle : 15 \$ à 30 \$ Price range: \$15 to \$30	Lyndal Trevena	lyndal.trevena@sydney.edu.au	University of Sydney, Sydney, New South Wales, Australia	Lyndal is Professor of Primary Health Care at the University of Sydney and a general practitioner with a strong focus on the implementation of evidence into practice. She is a member of the International Patient Decision Aids Standards group, the Partnering with Patients committee for the Australian Commission on Safety and Quality in Health Care and a co-author on the Cochrane review on patient decision aids. She co-leads a NHMRC Centre for Research Excellence called 'Ask Share Know: rapid evidence for general practice decisions' and provides pro bono clinical care to asylum seekers and refugees in urban Sydney.
		Maria Clayman	maria.clayman@gmail.com	American Institutes for Research, Chicago, Illinois, United States	Dr. Clayman is a health services and health communication researcher with over a decade of experience in designing and carrying out studies related to patient engagement and healthcare decision making. Dr. Clayman uses both qualitative and quantitative methods to answer research questions about how patients and healthcare providers do and don't communicate with one another—and then intervening to facilitate meaningful communication and decision making.
		Mary Anne-Levasseur	maryanne.levasseur@gmail.com		Mary Anne Levasseur is coordinator and facilitator of Family Peer Support at The Program for Early Intervention and Prevention of Psychosis (PEPP-Montreal), Douglas Mental Health University Institute. In addition, she is past Coordinator and still active member of ACCESS Open Minds Family & Carers Council. As well, Mary Anne sits on the Family Advisory committees of the Mental Health Commission of Canada and FRAYME, an international network that connects mental health, health and social services working with youth and young adults to accelerate the integration and implementation of youth care in Canada and around the world. Mary Anne is also a founding member of Patient Advisors Network. Mary Anne's dedicated commitment to families and caregivers of youth affected by mental health concerns stems from and reflects her ongoing care and support of her own son. Through her peer support work with family and caregivers, her participation on various family advisory committees, and her participation as knowledge user in research in youth mental health, Mary Anne hopes that sharing her experience, knowledge and passion in supporting family caregivers navigating systems in mental healthcare as they care for their affected youth, helps them as they assist their youth.

D	Portofino (Menu végétarien disponible/ Vegeterian options available) 965, rte de l'Église http://portofino.ca/en/ Echelle : 17 \$ à 30 \$ Price range: \$17 to \$30	Lilisbeth Perestelo-Perez lilisbethp@gmail.com		Canary Islands Health Service, Santa Cruz de Tenerife, Spain	<p>Dr. Perestelo-Perez is focused on the development, evaluation and implementation of decision support interventions for shared decision making in Spain. With a PhD in Clinical and Health Psychology awarded in 2007, she completed postdoctoral work as a research fellow at the Knowledge and Evaluation Research Unit (Mayo Clinic) (2008-2009) and at Health Decision Sciences Center (Massachusetts General Hospital) (2015) focusing on shared decision making and health services research. She works as a clinical psychologist-health services researcher at the Evaluation Unit of the Canary Islands Health Service and she is collaborating with others Agencies for Health Technologies Assessment in Spain and with the Ministry of Health, Social Services and Equality for the NHS. She is also member of REDISSEC (Health Services Research on Chronic Patients Network) in Spain and a co-founder of the Latin American Network for Medical SDM and Patients' Participation.</p> <p>Research interests: evidence-based practice, healthcare communication skills, health services research, health technology assessment, patient centred-care, patient decision aids, patient outcomes, patient participation, shared decision making.</p>
		Michael Pignone and Lisa pignone@auburn.utexas.edu		Dell Medical School, Austin, Texas, United States	<p>Chair of the Department of Internal Medicine, assistant dean for Veterans Affairs, director of the program on Cancer Prevention and Control, LIVESTRONG Cancer Institute and professor in the Departments of Internal Medicine, Oncology and Population Health. Research focused on chronic disease screening, prevention and treatment, and on improving medical decision making. His main areas of interest include heart disease prevention, colorectal cancer screening, and management of common chronic conditions such as diabetes and heart failure. Developed and tested interventions, including decision aids, to mitigate literacy-related health disparities and to improve the use of appropriate preventive services.</p>
E	Calao 2820, boulevard Laurier http://www.calao.ca/ Echelle : 25 \$ à 40 \$ Price range: \$25 to \$40	Zackary Berger zberger1@jhmi.edu		Johns Hopkins Berman Institute of Bioethics, Baltimore, Maryland, United States	<p>Dr. Berger is Associate Professor in the Johns Hopkins Division of General Internal Medicine and Core Faculty at the Johns Hopkins Berman Institute of Bioethics, with joint appointment in the Johns Hopkins Bloomberg School of Public Health. With an active practice in primary care internal medicine at Johns Hopkins, Dr. Berger focuses his clinical, educational, and research work, as well as his widely read publications for the lay public, on the ways in which shared decision making in the doctor-patient encounter might be in conflict with medical evidence and the political, social, and psychological realities of the patient.</p>
		Victor Montori montori.victor@Mayo.edu		Mayo Clinic, Rochester, Minnesota, United States	<p>Victor M. Montori, MD is a Professor of Medicine at Mayo Clinic. An endocrinologist and health services researcher, Dr. Montori is the author of more than 600 peer-reviewed publications and is among the top 1% of researchers with the most cited papers in clinical medicine and in social sciences worldwide in the last decade. He is now a Senior Advisor of the Agency for Healthcare Research and Quality. He also serves on the Editorial Advisory Board for the BMJ, the board of AcademyHealth, and as Director of Late Stage Translational Research at the Mayo Center for Clinical and Translational Science. He is a recognized expert in evidence-based medicine and shared decision-making, and developer of the concept of minimally disruptive medicine. He works in Rochester, Minnesota, at Mayo Clinic's KEEF Unit, to advance person-centered care. He is a co-founder of The Patient Revolution, a nonprofit focused on promoting careful and kind patient care, and author of the book Why We Revolt: A Patient Revolution for Careful and Kind Care.</p>
		Carolyn Canfield carolyn.canfield@ubc.ca		University of British-Columbia	<p>Carolyn Canfield works as a citizen-patient across Canada and internationally to expand opportunities for patients, carers and communities to partner with healthcare professionals. Following personal tragedy in 2008, her full-time volunteering has earned her recognition as Canada's first Patient Safety Champion in 2014, appointment at UBC as Adjunct Professor in the Department of Family Practice, and membership on UBC's MD Admissions Subcommittee. She co-founded BC's Patients In Education (PIE) and the national Patient Advisors Network (PAN) to develop capacity and leadership in citizen-patients.</p>
F	Kimono sushi 1137, rte de l'Église http://www.kimonosushibar.com/ Echelle : 27 \$ à 34 \$ Price range: \$27 to \$34	*Marie-Anne Durand marie-anne.durand@dartmouth.edu		The Dartmouth Institute for Health Policy and Clinical Practice, Lebanon, New Hampshire, United States	<p>Health service researcher/health psychologist with interests in healthcare communication (including shared decision making) and health disparities, self-management, health literacy, implementation science, and the impact of decision aids and self-management interventions on underserved populations and health disparities.</p>
		Trudy van der Weijden trudy.vanderweijden@maastrichtuniversity.nl		Maastricht University, Maastricht, Limburg, Netherland	<p>TvdW received her medical degree in 1989 and certified as epidemiologist. In 2005, she was appointed as Program Leader of the research program 'Implementation of evidence' in the School Care and Public Health Research Institute (CAPHRI) of Maastricht University, and in 2010 as full professor in Implementation of Clinical Practice Guidelines and SDM at the department of Family Medicine. Her research has a specific focus on patient perspectives and patient participation in medical decision making where the tension is felt between standardising work (the application of guidelines) and patient-centred work (the preferences of the patient in the context of the consultation).</p>
		*Nouha Ben Gaied nbgaied@alzheimerquebec.ca		Fédération québécoise des Sociétés Alzheimer, Montréal, Québec (Canada)	<p>Director research and development, and of the quality of services at the Federation of Quebec Alzheimer Societies.</p>

		*Jacqueline Tshiodo	jaquelinesatshiodo@gmail.com	ACOSIA-Congo Nouveau, bas-Congo, République Démocratique du Congo	
H	Chez Victor (Menu végétarien disponible/ Vegetarian options available) 2875, boulevard Laurier https://chezvictorburger.com/restaurant/laurier/ Échelle : 17 \$ à 30 \$ Price range: \$17 to \$30	Janet Panoch	jpanoch@iu.edu	Indiana University-Purdue University, Indianapolis, Department of Communication and Resource Development Manager at Amputee Coalition-DC headquarters, Beech Grove, Indiana, United States	Janet is a patient advocate for her daughter who diagnosed with bone cancer at age 12 in 2007. As a Health Communication PhD candidate, her dissertation research is a qualitative inquiry with patients and families for the development of an Amputation Decision Aid for Malignant Tumors in the Lower Extremity. Janet's daughter had an above knee amputation in 2018; her research interests merge with patient education and resource development at the Amputee Coalition for the limb loss community. Janet recruits stakeholders from both the patient population and interdisciplinary clinical experts to better inform SDM tools for medical decision making. She has decision making experience with providers in obstetrics, pediatric oncology, medical education, and pediatric urology.
		Karen Sepucha	ksepucha@mgh.harvard.edu	Massachusetts General Hospital, Boston, Massachusetts, United States	Interests in implementation of patient decision aids in primary care and orthopedics, clinician training in shared decision making, and measurement of shared decision making and decision quality.
		Sara Jalali	jalali@ualberta.ca		
I	Café Temps perdu 867, avenue Myrand http://www.cafeautempsperdu.com Échelle : 20 \$ à 30 \$ Price range: \$20 to \$30	*France Légaré	France.Legare@fmed.ulaval.ca	Department of Family Medicine and Emergency medicine, Laval University, Québec, Canada	First trained as an architect, France Légaré practices family medicine in Quebec and is a full professor in the Family Medicine and Emergency Medicine Department at Université Laval, Quebec. In 2005, she obtained her PhD in Population Health from the University of Ottawa under the supervision of Dr. Annette O'Connor. The same year, she was awarded a grant as a clinical investigator by the Fonds de la recherche en santé du Québec (FRSQ) for her research program entitled "Health professionals in primary care: From knowledge brokers to decision brokers." From June 2006 to May 2016, Dr. Légaré held the title of Tier 2 Canada Research Chair in Shared Decision Making and Knowledge Translation, junior level. As of June 1st 2016, she holds the title of Tier 1 Canada Research Chair in Shared Decision Making and Knowledge Translation. She was also the Canadian Cochrane Network Site representative at Université Laval (the CHU de Québec Research Centre) from 1999 to 2013 and, from 2013-15, its inaugural scientific director. She now acts as its scientific co-director.
		*Jean Légaré	jeanlegare@gmail.com		Jean Légaré worked in telecommunications engineering for over 31 years. He was diagnosed with rheumatoid arthritis at the age of 38, in 1995. This disease drastically changed his life and that of his family. As a result of his medical condition, he was hospitalized and underwent five surgeries to both hands and both feet. Jean Légaré joined the Association of Arthritic Quebec as a board member and was treasurer until 1999. His analytical skills and competence as an orator led him later to join the Advocacy Committee of Arthritic Patients. He is a facilitator of the Patients' Forum, which seeks to better disseminate information about the disease and recent developments in research about relief. Jean Légaré's commitment then spread nationwide when he joined the Canadian Arthritis Patient Alliance and the Canadian Arthritis Network, of which he was made an emeritus member in 2007. He is dedicated to helping fellow Canadians living with arthritis. He has participated in many media events and is frequently asked to be a spokesperson on arthritis issues. In addition to these activities, Jean Légaré has actively participated in dozens of clinical research projects, which has led him to engage in the Steering Committee of the Research Fund for Arthritis and Rheumatic Diseases at Université Laval. He has also frequently shared his engaging personal testimony, popular with students and medical residents alike. In 2003, he was awarded the Commemorative Medal for the Golden Jubilee of Queen Elizabeth II for his outstanding contribution and importance to the country, to his fellow-citizens and to the Arthritis Society of Canada.
		Annie Poirier	annie.poirier.2@ulaval.ca		Annie Poirier is a patient-partner at the Collaboration and Patient Partnership Unit from University of Montreal and the SPOR-SUPPORT Unit in Quebec, and is a research professional in the Population Health and Best Practices division at CHU de Québec. Ms. Poirier holds two bachelor's degrees in biomedical sciences and health sciences as well as a master's degree in public health - evaluation. Her experiential knowledge is primarily related to mental illness, chronic pain, end-of-life care, and informal caregivers. She is actively involved in several teaching and research initiatives, including a grant committee, scientific committees and the development of decision aid tools. She is also co-author of several communications related to patient engagement. With a global perspectives of population health, she transposes her personal and professional experiences to help improve the integration and quality of health care and social services. She is interested in interprofessional collaboration, ethics and the costs of care.
